EXAMINER'S COMMENT

An Examiner's Comment to the record appears below. Should the changes and/or additions be unacceptable to Applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Declaration under 37 CFR § 1.132

Applicant's Declaration under 37 CFR § 1.132 and Remarks filed April 28, 2010 are acknowledged. Exhibit B (Simpson et al.) and Exhibit C (Weber et al.) contained therein, which detail specific molecular mass limitations for gap junction traversal have been fully considered by the Examiner.

Information Disclosure Statement

Applicant's Information Disclosure Statement filed September 20, 2007 is acknowledged. It is noted that the reference of Valiunas et al. contained therein lacked a publication date. The Examiner has attached the IDS filed September 20, 2007 and included the publication date of the Valiunas et al. reference. The submission is in compliance with the provisions of 37 CFR §1.97. Accordingly, the Examiner has considered the information disclosure statement, and a signed copy is enclosed herewith.

Prior art relied upon but not made of record

Prior art relied upon but not made of record is U.S. Patent No. 5,762,926. Patent No. 5,762,926 discloses a method of introducing a generically modified donor cell that could establish gap junctions or other contacts with target cells (see Figure 1, for example). U.S. Patent No. 5,762,926 discloses that the genetic modifications include gene transfer (see Abstract) and the donor cells are cells which are known in the art to express connexin 43 (see claim 25, for example). However, U.S. Patent No. 5,762,926 does not teach or suggest that small oligonucleotides with the specific size limitations as recited in Applicant's claims are delivered to target cells.

Any comments considered necessary by Applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Terra C. Gibbs whose telephone number is 571-272-0758. The examiner can normally be reached from 9 am - 5 pm M-F.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Christopher Low can be reached on 571-272-0951. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
